

ELBEX®

CUSTOM RUBBER EXTRUSIONS

- Extruded profiles 1/16" to 18" wide
- Most elastomers in both sponge and dense profiles
- EPDM, Nitrile (Buna-N), Neoprene (Polychloroprene), Polyisoprene, Butyl, SBR, and Silicone; (no Fluoroelastomers)
- Cord, tubing, and sheeting up to 18" wide
- Custom product and rubber compound design assistance
- Color matching with silicone profiles in both dense and sponge
- High-speed auto cutting, punching, and splicing
- Finished gaskets – butt & mitre-spliced, continuous mitre-spliced
- Taping with pressure-sensitive adhesives, mastics, and HATS
- Secondary molding (butt-splice, compression, injection and transfer)
- Strong SPC-controlled facilities
- On-spec and on-time deliveries
- Complete QC from design to finished product
- Continuous vulcanization lines (salt-bath cure)
- Davis-Standard extruders
- In-house tooling design and production
- Manufacturing to meet ASTM, SAE, AMS, Military, & RMA Specifications

MAJOR MARKETS SERVED

- Commercial / Industrial / OEM
- Architectural
- Construction
- Water Control
- Pipe Gaskets
- Container Gaskets
- Automotive
- Railway / Mass Transit
